Brief

 inside

In today's marketplace, the image is everything. How your company looks to the outside world sets the tone for all of your interactions – with customers, partners, media and other key stakeholders. You cannot afford to present an unprofessional or inconsistent image in a competitive and crowded landscape.

Partnering with an experienced graphic design & marketing team ensures that your organizational image achieves a maximum positive impact on your target audience. You need a partner that understands how to create or revitalize an organization's visual identity standards and extend these frameworks into creative, project-specific approaches.

Successful brands are built on a foundation of meaningful brand strategy. And, that strategy provides the framework for what your brands mean and how they should be organized.

Oftentimes, making decisions about the future of a brand can be politically charged and challenging for an internal team to confront on its own. It's difficult for a company to be objective about themselves – tenure and passion have a tendency to cloud constructive decision-making.

That's where we come in. In our collaborative strategy process, we balance business planning with creative thinking to create a clear roadmap for where you want your brand to be in the future. But it doesn't end there – we also design effective brand strategy tools to help you stay on the path to success.

Here's what inside creative team can do for you:

Branding, brand strategy, brand awareness, brand positioning, brand creation, naming, brand management, brand development, brand assessment, brand positioning, brand messaging, rebranding.

A fast pace of growth in the mobile world implies that nearly all types of businesses need to have their products and services presented on pocket-sized devices. Here come application development services that can turn your business ideas into highly effective mobile application solutions. We are fully armed and ready to create app for iPhone and Android, Windows Phone and hybrid platforms.

No matter what your industry is, our team can build an app for your exclusive brand. We apply a customer-oriented approach in application development, which means that before we even begin to create an app, we consider peculiarities of the specific sphere that you work in, and take into account your needs and recommendations to achieve the desired results.

We love taking ideas and turning them into real apps. We are passionate, creative, and have experience developing products as entrepreneurs.

Photography is the witness of historical, geographical, cultural, commercial or fashion developments — or simply the magic of a particular moment in time. Fixed in an instant, their image can become a timeless part of a collective memory. Its influence might even become worldwide.

We have creative photographers and retouches. The old Chinese saying: Do a job you love and you'll never do a day's work in your life, are the words we live by. When we are approached by clients, we like to look at their photographic projects from both sides. We don't just turn up and shoot.

We like to solve problems and offer sound, deliverable solutions that give them an edge and give us a challenge. Whether they are looking for simple, no frilled portraits or a more involved shoot for their latest advertising campaign or annual report, we deliver above and beyond. It's that service which has earned us the enviable reputation we have today, just ask our clients.

If you're looking for creative ideas that drive high conversion rates, content that inspires action and design that just won't let you look away then you're in the right place.

We're Inside Creative and our mission is to create unforgettable communications that enable businesses to stand up, stand out and turn their ideas into extraordinary success. Work with us and we'll figure out what you want (or what you need) and then make sure you get it.

We blend strategy and creativity with data and insight to build solutions users love. We harness the power of change to drive us to innovate, collaborate and create.

Whatever you need, being able to access all these disciplines from one creative company in Qatar can really pay dividends. As well as making life a whole lot simpler for you, the combination of our branding, marketing and graphic design expertise will significantly improve your chances of reaching the place you want to be.

We strive to exceed expectations in all aspects of event planning, design, production and logistical management. We always offer something unique and we have a sharp eye for detail. We like to build long-term relationships with clients, acquiring a detailed understanding of their on-going event requirements and their strategy for achieving their objectives. This helps us ensure that the technique we use to communicate their messages is always exciting and appropriate.

We have a forward-thinking approach to our events and working practice, making certain that all the right systems are put in place to ensure a trouble-free, successful project. Enforcing an effective health and safety management policy is critical to this success and something that we take very seriously at all our events.

Also, from designing an attention-grabbing visual theme for your corporate stand, an exclusive invitation to your launch event or the impactful presentation you deliver at a keynote speech, we'll work with you to create exhibition materials that showcase the very best you have to offer to leave a lasting impression.

Work process

We believe that good quality design/work requires more than just creativity. It requires research, analysis and close collaboration with you to reflect your organization's vision, strengths, messages and priorities.

To ensure that our design aligns with your expectations, we have developed a four-phase process to guide us every step of the way.

Phase I: Research

Before any actual creative work begins, Inside Company conducts extensive background research. We will meet with you to understand your goals, audience needs and project expectations. In addition, we will conduct market, customer and competitive research to gather additional insight. Once our research is complete, we will provide a creative brief to summarize the results of our inquiries and outline the project, along with a detailed project schedule to ensure on-time delivery.

Phase II: Design

When our analysis is complete and you are onboard with the initial concepts, design work begins. We keep your communication needs and priorities at the core of every design decision – from colours to image selection to font styles. Typically, we explore several different creative approaches before centring on our main creative ideas. Based on your feedback, we evolve these creative approaches into comprehensive design directions. As part of this process, we will deliver at least three creative concepts for your evaluation.

Phase III: Implementation

After you select your preferred creative direction, we begin design execution. [COMPANY.Company] works with you to select images and gather copies for the final design pieces. We produce draft outputs for your review and make sure that your input is reflected before any piece goes into production. When your quality standards (and ours) are achieved, we prepare your design pieces for final production. We collaborate closely with any third-party vendors (such as printers) to make sure that the finished product meets your expectations.

Phase IV: Evaluation

After the design is complete, we follow up with you to assess the outcome of the project. We are keen to hear not only your insights on our process and designs, but also any feedback you have received from your audience. If desired, we can work with you to design data-gathering tools – such as customer surveys – to collect insight from your target audience.

Orthopaedic

Many developments in orthopedic surgery resulted from experiences during wartime. On the battlefields of the Middle Ages the injured were treated with bandages soaked in horses' blood which dried to form a stiff, but unsanitary, splint.
